### **EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE**

The following is an Examiner's Statement of Reasons for Allowance: Applicant has amended each of the previously rejected independent claims to change the recitation "approximately 230 to 250 nanometers" to simply "230 to 250 nanometers". This amended limitation clearly overcomes the previously applied rejection based upon U.S. Patent 6,483,965 to Napier et al, since the Examiner was relying on the fact that 266 nanometers (as taught in Napier et al) is close enough to the wavelength range of "approximately to 230 to 250 nanometers" that a person of ordinary skill in the art would have found any difference therein to be obvious. Since the claims (as amended) now positively require a fourth harmonic wavelength within the range of 230 to 250 nanometers, Napier et al would *not* have rendered the claimed apparatus obvious. The previously applied rejection based upon Napier et al is therefore withdrawn and claims 1-52 are allowed. Claims 53-56 remain allowable for the reasons set forth in the previous Office action.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### **DISCUSSION OF THE CITED PRIOR ART**

U.S. Patent 6,701,044 to Arbore et al is cited on the attached form PTO-892. This U.S. Patent discloses and claims a very similar apparatus for writing a Bragg grating in an optical fiber, the apparatus comprising a solid-state laser providing a fourth harmonic

wavelength between 240 and 250 nanometers. Because of its date, however, this U.S. Patent cannot be used as a reference against the claims of the present application. It also does not appear that applicant can copy the Arbore et al claims (in order to provoke an interference) because Arbore et al includes a filtering fiber amplifier as part of the claimed apparatus.

Any inquiry concerning the merits of this communication should be directed to Examiner John D. Lee at telephone number (571) 272-2351. The Examiner's normal work schedule is Tuesday through Friday, 6:30 AM to 5:00 PM. Any inquiry of a general or clerical nature (i.e. a request for a missing form or paper, etc.) should be directed to the Technology Center 2800 receptionist at telephone number (571) 272-1562, to the technical support staff supervisor (Team 8) at telephone number (571) 272-1564, or to the Technology Center 2800 Customer Service Office at telephone number (571) 272-1626.
